Suncombe announces appointment of Hosokawa Micron as new sales agent in the Netherlands

London, UK – Suncombe, a leading global supplier of hygienic process equipment and systems, is pleased to announce the appointment of Hosokawa Micron as its new sales agent in the Netherlands.

Hosokawa Micron is a well-established manufacturer of powder processing equipment with over 50 years of experience in the hygienic process industry. The company specializes in providing high-quality equipment and solutions to a wide range of industries, including food, beverage, pharmaceuticals, and chemicals.

With this partnership, Suncombe aims to strengthen its presence in the Netherlands and provide local customers with a comprehensive range of innovative and high-performance process solutions.

Hosokawa Micron will represent Suncombe's complete range of products and services, including cleaning, decontamination and sterilization equipment and skid-mounted process systems.

"We are excited to be partnering with Hosokawa Micron as our new sales agent in the Netherlands," said Steve Overton, Suncombe's Operations Director. "Their reputation for providing high-quality solutions and excellent customer service aligns with our own values, and we are confident that they will help us grow our business in the region."

"We are delighted to be appointed as the sales agent for Suncombe in the Netherlands," said Eric Schop, Area Sales Manager of Hosokawa Micron. "Their range of hygienic process equipment and systems complements our own product portfolio perfectly, and we are looking forward to working closely with them to deliver the best solutions to our customers."
