## CIP Accessories

### Chemical Distribution and Storage

### Flowplates

### Chemical Dosing Skids

### Utility Panels

### Optional Integrated Steam Generation and Air Compressor

The systems are available with integrated Steam Generation and Air Compressors, to offer stand-alone capability. The steam generators and compressors can also be supplied on a separate skid for location in a remote area if preferred. Some clients prefer to adopt this approach for maintenance purposes. We utilise steam generators by Fulton and Air Compressors by Atlas Copco as these manufacturers offer top quality reliable products with worldwide local service partners.
